content from 200 publishers'**
**'convert xml to json using jackson
baeldung**

*June 2nd, 2020 - since xml lacks
native structures to distinguish an
object from a list of objects jackson
will simply collate repeated elements
into a single value and since jackson
wants to map each xml element to a
json node it doesn't support mixed
content for these reasons the official
jackson docs remind against using
tree models to parse xml*
