**10216 5 Impact Ireland Metals**

May 6th, 2018 - Stainless Steel 316  
BS EN 10216 5 Description Type 316L  
is an austenitic chromium nickel  
stainless steel containing molybdenum  
which increases general corrosion  
resistance improves resistance to  
pitting and provides strength at  
elevated temperatures Type 316L is  
non hardenable by heat treatment and  
is generally considered to be  
weldable by'
