'How to Fix Hal dll Errors in

Windows 7 8 10 and Vista
December 29th, 2019 - An issue with the volume boot code is the most common cause of hal.dll errors in Windows 7 8 10 or Vista. The reason we list it as the fourth troubleshooting step is because the first three are so simple to try. However, if you're comfortable working with advanced tools on Windows, feel free to give this one a shot first.
