**'Glutathione and
Glutathione Conjugate
Metabolism in
November 13th, 2019 -
The metabolism of
extracellular**

glutathione and
paracetamol S
glutathione conjugate
has been studied in
isolated liver and
kidney cells With
kidney cells but not
with liver cells

added GSH is rapidly
oxidized The
oxidation is O_2
dependent and yields
GSSG which is the
substrate for
subsequent
degradative

reactions'

March 1st, 2018 - The

*liver is the largest
solid organ in the
human body It
performs 500
essential tasks
including
detoxification
protein synthesis and*

*the production of
digestive chemicals
As long as 25 percent
of the liver's tissue
remains it can
regenerate completely
without losing
function [Learn more](#)*

about the liver here'

'Glutathione

Wikipedia

November 4th, 2019 -

**Glutathione GSH is an
antioxidant in plants
animals fungi and**

some bacteria and
archaea Glutathione
is capable of
preventing damage to
important cellular
components caused by
reactive oxygen
species such as free

radicals peroxides
lipid peroxides and
heavy metals'

*'7 Powerful Health
Benefits of
Cellgevity Boost
Glutathione*

*December 25th, 2019 -
The concentration of
glutathione within
the liver is very
high It s needed to
help detoxify and
eliminate damaging
substances*

Insufficient liver glutathione levels allows the liver s cells to be damaged by free radicals which reduces normal liver function and can even lead to

liver failure'

**'kidneys and the
glutathione
connection Kidney
Failure**

December 26th, 2019 -
These glutathione

enzymes have distinct distribution along the nephron in the kidneys making them central to kidney detoxification and function By acting as both a detoxifier and

antioxidant
glutathione prevented
lipid peroxidation
which is the
oxidation of lipids
or fats by free
radicals in the
kidneys and other

organs '

removed and rapidly

placed in a deep
freezer at -70°C until
the time of analysis'

'Glutathione
Information What is
GSH Biochemistry
December 23rd, 2019 -

Glutathione GSH is often referred to as the body's master antioxidant. Composed of three amino acids: cysteine, glycine, and glutamate, glutathione can be found in

virtually every cell
of the human body The
highest concentration
of glutathione is in
the liver making it
critical in the body
s detoxification
process'

**'Top 8 Kidney
Cleansing Foods to
Enhance Kidney
Function**

December 24th, 2019 -
Glutathione is a
protein that aids in
the detoxification of

*the kidney Food for
