python Reverse Engineering Stack Exchange

December 26th, 2019 - The purpose of generating an EXE with PyInstaller is so that the systems you run it on do not require the existence of a Python interpreter or any 3rd party modules you may be using It makes your Python script more portable but does not hide the code logic from a reverse engineer ? Mick Apr 2 at 15 46'

'Newest python Questions Stack Overflow

December 26th, 2019 - Python is a multi paradigm dynamically typed multipurpose programming language designed to be quick to learn to use and to understand and to enforce a clean and uniform syntax Two similar but incompatible versions of Python are commonly in use Python 2 7 and 3 x'

'Which other programming languages apart from Python and

December 21st, 2019 - After years of using Python I m still intrigued by and very fond of this syntax feature But I wonder Apart from Python and its predecessor language ABC which other programming languages are out there using indentation for definition of code blocks Code blocks means here multiple statements which in some way are treated as one component'

'How to get a python node in ROS subscribe Stack Exchange

December 22nd, 2019 - How a ROS node written in Python could subscribe to multiple topics and publish to multiple topics All examples I found were for a single topic Is this an event driven model so subscription to multiple events is allowed or it is more like a loop so it can listen only to one source at a time'
