qualitative research and occupational medicine

**May 19th, 2020 - the general
consensus is that qualitative
research is an interpretative
approach concerned with
understanding the meanings that
people attach to their actions beliefs
values and so on and an approach
that focuses and attempts to
understand the ways in which people
make sense of and interpret the
world around them'**

'literature review as a research methodology an overview

June 3rd, 2020 - these methods often
have similarities to approaches used in
qualitative research in general for
example a thematic or content analysis
is a monly used technique and can be
broadly defined as a method for

identifying analyzing and reporting patterns in the form of themes within a text braun amp clarke 2006'
