October 11th, 2018 - This Specialization covers intermediate topics in software development You'll learn object oriented programming principles that will allow you to use Java to its full potential and you'll implement data structures and algorithms for organizing large amounts of data in a way that is both efficient and easy to work with'

### ***'CiteSeerX ? Open Data Structures in Java***

*August 5th, 2018 - The goal of this project is to forever free undergraduate computer science students from having to pay for an introductory data structures book I have decided to implement this goal by treating this book like an Open Source software project'*
