getting started with  
react hooks pusher

---

---

April 22nd, 2020 -  
react hooks is a new  
feature that is likely  
ing in react 16 7 if  
you have been on  
twitter you have likely  
seen the amount of buzz  
surrounding the  
announcement of react  
hooks a quick look at  
google trends for the  
past 30 days reveals  
that there has been an  
increased interest in  
react hooks'

'hooks api reference  
react

June 5th, 2020 - hooks  
are a new addition in  
react 16 8 they let you  
use state and other  
react features without  
writing a class this  
page describes the apis  
for the built in hooks  
in react if you re new  
to hooks you might want  
to check out the  
overview first you may  
also find useful  
information in the  
frequently asked  
questions section basic  
hooks'

'making api calls with  
react hooks bits and  
pieces

June 4th, 2020 - let s  
start with quick  
introduction to react

---

---

hooks hooks are functions that let you hook into react state and lifecycle features from function ponents hooks don t work in classes they let you use react without classes usestate usestate is a hook we call it inside a function ponent when we want to add some local state to it the good thing about this is that the state will be preserved during re rendering'

'hooks react redux June 5th, 2020 - react s new hooks apis give function ponents the ability to use local ponent state execute side effects and more react redux now offers a set of hook apis as an alternative to the existing connect higher order ponent''react hooks a simple

*introduction upmostly*  
*May 17th, 2020 - react hooks were released as part of react 16 8 if you d like to learn more about hooks we ve written two tutorials on how to use them using custom react*

---

---

hooks to simplify forms  
build an infinite  
scroll component using  
react hooks react hooks  
allow us to take  
stateless functional  
components and apply state  
and lifecycle methods  
to them'

'hello world react  
June 5th, 2020 - react  
is a javascript library  
and so we'll assume you  
have a basic  
understanding of the  
javascript language if  
you don't feel very  
confident we recommend  
going through a  
javascript tutorial to  
check your knowledge  
level and enable you to  
follow along this guide  
without getting lost'

'a quick guide to  
testing react hooks  
logrocket blog  
June 4th, 2020 - react  
hooks example react  
hooks example by yomete  
using react react  
awesome styled grid  
react dom react scripts  
styled components in the  
app above we're using  
the useState and  
useEffect hooks if you  
navigate to the index

---

---

*js file in the app  
function you ll see an  
instance where usestate  
is used'*

'react hooks is the  
functional paradise you  
ve been waiting for  
May 20th, 2020 - react  
hooks it s where it s  
at disclaimer react  
hooks is still  
technically in alpha  
stage 16 8 0 alpha0 as  
of today but that may  
change use the next tag  
to be safe so you  
shouldn t'

'what are react hooks  
rwieruch  
June 3rd, 2020 - react  
hooks were introduced  
at react conf october  
2018 as a way to use  
state and side effects  
in react function  
ponents whereas  
function ponents have  
been called functional  
stateless ponents fsc  
before they are finally  
able to use state with  
react hooks therefore  
many people refer to  
them as function  
ponents now'

'a quick guide to  
testing react hooks  
that use rxjs dev  
May 23rd, 2020 - react

---

**hooks supercharge your functional components in many ways with hooks we can abstract and decouple the logics with custom hooks with the separation of logics makes your code testable and share between**

**components' 'rewriting a react component using hooks and react memo**

*June 3rd, 2020 - you can get an overview of react hooks or if you are really interested do a deep dive in dan s blog let s get on to our business convert a react class component that uses state to a function component using hooks react class component with state the component that i am going to use is the inputcolor of gauge generator app'* **react hooks tutorial for beginners getting started with**

*June 4th, 2020 - with react hooks you can reuse common pieces of logic between react components the most important are useState and useEffect useState makes possible to use*

---

---

local state inside  
react ponents without  
resorting to es6  
classes useeffect  
replaces ponentdidmount  
ponentdidupdate and  
ponentwillunmount with  
a unified api'
