Wikipedia

May 13th, 2018 - Applications

Stream processing is essentially a compromise driven by a data centric model that works very well for traditional DSP or GPU type applications such as image video and digital signal processing but less so for general purpose processing with more randomized data access such as databases'

'Peer Reviewed Journal IJERA com

May 12th, 2018 - International

Journal of Engineering Research and Applications IJERA is an open access online peer reviewed international journal that publishes research'
