mundi vol 71 no 2 pp 222 223*

**'spatial imaginary and geography a plea for the geography
March 9th, 2020 - this conception of the discipline based on
cartesian precepts of evidence eg the observer s independent
certainty reductionism ie a disaggregation into sets of simple
elements causality ie the presupposition of a linear linkage
between cause and effect and exhaustiveness ie the certainty
that nothing essential has been omitted has been thrown into
question by the geography of representations holistic
approach'**
