'javascript for web designers dom scripting a list apart  
May 22nd, 2020 - the object part of document object  
model should make a lot more sense now than it did the  
first time the dom came up though the dom is a  
representation of a web page in the form of an object  
made up of properties that represent each of the  
document s child elements and subproperties  
representing each of those elements child elements and  
so on'
