'Celerra NDMP Backup Central  
December 3rd, 2019 - If the latter  
then yes you have to log into the  
Celerra and find out what IT thinks  
its device name is after you get  
the tape drive attached If you are  
doing NDMP dumps across the SAN all  
the TSM server is doing is sending  
a Go forth and run NDMP command to  
the Celerra The Celerra is doing  
everything else so it has to know  
how to find the'

'All guides ? Innovative Search
