May 7th, 2018 - Face Recognition Databases DATABASES When benchmarking an algorithm it is recommendable to use a standard test data set for researchers to be able to directly compare the results While there are many databases in use currently the choice of an appropriate database to be used should be made based on the task given aging expressions'

'Artificial neural network Wikipedia

May 8th, 2018 - An artificial neural network is a network of simple elements called neurons which receive input change their internal state activation according to that input and produce output depending on the input and activation'

'Compressed sensing Wikipedia

May 9th, 2018 - Compressed sensing also known as compressive sensing compressive sampling or sparse sampling is a signal processing technique for efficiently acquiring and reconstructing a signal by finding solutions to underdetermined linear systems'
