milton h erickson

ericksonian hypnosis

is a method of indirect

hypnosis named after

dr milton erickson a

prominent american

psychiatrist and

psychologist erickson

is widely regarded as

**the father of
hypnotherapy his
discoveries have
influenced a wide
spectrum of therapy
from strategic family
therapy to neuro
linguistic
programming dr'
'ericksonian hypnosis
powerful way to
hypnotise using**

June 2nd, 2020 -

ericksonian scripts are
very interesting
because these are quite
different from the
normal scripts which
are very direct and
authoritative for
example one of the
ericksonian hypnosis
scripts is the resistance
script this gives the
participant the
opportunity to resist
however the moment
the participant accepts
the suggestion he or
she will be accepting all
the other suggestions"
