THE SMD CODEBOOK SOS

October 9th, 2018 - THE SMD CODEBOOK SMD Codes SMD devices are by their very nature too small to carry conventional semiconductor type numbers Instead a somewhat arbitrary coding system has grown up where the device package carries a simple two or three character ID code'

'6Z Model Search Marking Codes smdmark.com

October 8th, 2018 - M5C is the top mark marking code and the 3 means batch number of 13 years So when searching the top mark marking code please search M5C then it will show the original model number of MMBD7000LT1G Vice versa when searching the model number of MMBD7000LT1G it will show the top mark marking code of M5C top mark marking code'
