MIMO with MMSE equalizer dspLog

May 4th, 2018 - Describes a 2x2 MIMO system using Minimum Mean Square Error MMSE equalizer for BPSK modulation in Rayleigh channel Matlab Octave simulation model provided'

'A Beginner s Guide to Deep Reinforcement Learning

January 30th, 2018 - Open Source Deep Learning Software for Java and Scala on Hadoop and Spark'

'Closest pair problem Rosetta Code

May 5th, 2018 - distance between 0 891663 0 888594 and 0 925092 0 818220 is 0 0779102 BBC BASIC To find the closest pair it is sufficient to compare the squared distances it is not necessary to perform the square root for each pair'

'Expat Dating in Germany chatting and dating Front page DE

May 5th, 2018 - The first and the best free dating site for Expats in Germany Find and meet other expats in Germany Register for free now'

'The Music DSP Source Code Archive Filters

May 5th, 2018 - 4th order Linkwitz Riley filters Type LP HP LR4 References Posted by neolit123 at gmail dot com Notes Original from T Lossius tblue project Optimized version in pseudo code"

Kalman filter Wikipedia

May 2nd, 2018 - History The filter is named after Hungarian émigré Rudolf E Kálmán although Thorvald Nicolai Thiele and Peter Swerling developed a similar algorithm earlier Richard S Bucy of the University of Southern California contributed to the theory leading to it sometimes being called the Kalman?Bucy filter"

Peer Reviewed Journal IJERA com

May 6th, 2018 - International Journal of Engineering Research and Applications IJERA is an open access online peer reviewed international journal that publishes research'

'Greatest common divisor Rosetta Code

May 2nd, 2018 - For maximum compatibility this program uses only the basic instruction set S 360 with 2 ASSIST macros XDECO XPRNT Greatest common divisor 04 05 2016'

'Essentials of the self organizing map ScienceDirect

April 30th, 2018 - where ? t is a monotonically e g hyperbolically exponentially or piecewise linearly decreasing scalar function of t sqdist c i is the square of the geometric distance between the nodes c and i in the grid and ? t is another monotonically decreasing function of t respectively'

'Circularly symmetric convolution and lens blur « iki fi o

May 2nd, 2018 - This article describes approaches for efficient isotropic two dimensional convolution with disc like and arbitrary circularly symmetric convolution kernels and also discusses lens blur effects"

ICML 2011 The 28th International Conference on Machine

May 5th, 2018 - Online Proceedings These are the abstracts of the accepted papers You can download the whole proceedings 87MB zip and the summary bibfile

Hashing with Graphs Wei Liu Jun Wang Sanjiv Kumar Shih Fu Chang'

'Writing R Extensions

May 1st, 2018 - 1 Creating R packages Packages provide a mechanism for loading optional code data and documentation as needed The R distribution itself includes about 30 packages"

Sathiya Keerthi s Homepage

April 30th, 2018 - Slide deck of my talk on Interplay between Optimization and Generalization in Deep Neural Networks given at the 3rd annual Machine Learning in the Real World Workshop organized by Criteo Research Paris on 8th November 2017 Optimization and Generalization Keerthi Criteo November 08 2017 pptx'
