Version. Oracle Technology  
Network for Java Developers  
Oracle. What is Type Casting in  
Java Casting one Class to other**

**java get jsp response as a string  
inside servlet Stack**

---

---

**May 5th, 2018 - Is there a way to get response from a jsp file as a String inside servlet**

**Something like protected void service(HttpServletRequest request, HttpServletResponse response) throws**

**ServletException"Object vs Object Variable in Java Stack**

---

---

## **Overflow**

May 6th, 2018 - tl dr fmoe I came across the same question in a review exercise found within Cay Horstmann Big Java Early Objects John Wiley amp Sons 2013 73 Cay defines an object variable as a variable whose type is a class which stores a reference

---

---

to the memory location of an object'

***Introduction to Java  
Programming Comprehensive  
Version***

*May 1st, 2018 - Introduction to  
Java Programming  
Comprehensive 9e features  
comprehensive coverage ideal for*

---

---

*a one two or three semester CS1  
course sequence Daniel Liang  
teaches concepts of problem  
solving and object oriented  
programming using a  
fundamentals first approach'*
