'Multivariate statistics Wikipedia
June 23rd, 2018 - Multivariate statistics
is a subdivision of statistics
encompassing the simultaneous observation
and analysis of more than one outcome
variable The application of multivariate
statistics is multivariate analysis'

'Multivariate analysis of variance
Wikipedia
June 21st, 2018 - In statistics
multivariate analysis of variance MANOVA
is a procedure for comparing multivariate
sample means As a multivariate procedure
it is used when there are two or more
dependent variables and is typically
followed by significance tests involving
individual dependent variables separately'
