May 4th, 2018 - Electric Motors Engineers who design electric machines need simulation tools that can be employed for quick accurate product development By employing

finite element methods early in the design process they can accelerate development and achieve higher machine efficiencies using less material which reduces

costs' **'Programme ? Master in Offshore Renewable Energy**

April 30th, 2018 - In its first part modern control theory basics are introduced focusing on State Space system modeling and control Using these concepts Model based Predictive Control approaches are introduced an advanced control approach that combines optimum and multivariable control' **'Iranian Journal of Electrical and Electronic Engineering**
