'the research behind graphic novels and young learners

May 30th, 2020 - by Leslie Morrison, CTED Summer Leapfrog Coordinator
Over the last decade, graphic novels have been a popular format in classrooms, partly due to their appeal to reluctant readers. More recently, a growing body of research focused on how the brain processes the combination of images and text indicates that graphic novels are also excellent resources for advanced learners.'

'ics

May 30th, 2020 - ics is a medium used to express narratives or other ideas through images usually bined with text it typically takes the form of a sequence of panels of images textual devices such as speech balloons captions and onomatopoeia can indicate dialogue narration sound effects or other information the size and arrangement of panels contribute to narrative pacing"*the ics grid journal of ics scholarship*
