June 22nd, 2018 - Face Recognition Databases DATABASES When benchmarking an algorithm it is recommendable to use a standard test data set for researchers to be able to directly compare the results While there are many databases in use currently the choice of an appropriate database to be used should be made based on the task given aging expressions'

'Papers published by Lei Zhang Hong Kong Polytechnic

'SIFT Flow Dense Correspondence across Scenes and its April 27th, 2016 - SIFT flow algorithm Dense SIFT descriptor and visualization SIFT is a local descriptor to characterize local gradient information 5 In 5 SIFT descriptor is a sparse feature representation that consists of both feature extraction and detection" Tutorial OpenCV haartraining Rapid Object Detection With

June 22nd, 2018 - Objective The OpenCV library provides us a greatly interesting demonstration for a face detection Furthermore it provides us programs or functions that they used to

train classifiers for their face detection system called HaarTraining so that we can create our own object classifiers using these functions'
