'introduction to geometry art of islamic pattern  
June 6th, 2020 - in islamic art the geometric figure  
of the circle represents the primordial symbol of  
unity and the ultimate source of all diversity in  
creation the natural division of the circle into  
regular divisions is the ritual starting point for  
many traditional islamic patterns as demonstrated in  
the drawings below''islamic interlace patterns

June 4th, 2020 - interlacing patterns are patterns of  
lines and shapes that have traditionally dominated  
islamic art they can be broadly divided into the  
arabesque using curving plant based elements and the  
girih using mostly geometrical forms with straight  
lines or regular curves both of these forms of islamic  
art developed from the rich interlacing patterns of  
the byzantine empire and from coptic art'
