a gentle introduction to linear algebra

May 31st, 2020 - as
linear algebra is the
mathematics of data
the tools of linear
algebra are used in
many domains in his
classical book on the

topic titled

May 31st, 2020 -
algebra is just like
a puzzle where we
start with something
like $x^2 + 4$ and we
want to end up with
something like x^6
but instead of saying
obviously x^6 use
this neat step by
step approach work
out what to remove to
get x^6 remove it by
doing the opposite
adding is the
opposite of
subtracting do that
to both sides'

May 27th, 2020 - now to find the prices of bat and ball we need the values of x and y such that it satisfies both the equations the basic problem of linear algebra is to find these values of x and y i e the solution of a set of linear equations broadly speaking in linear algebra data is represented in the form of linear

equations'
