ca"Quantum algorithm

April 27th, 2020 - In quantum computing a quantum algorithm is an algorithm which runs on a realistic model of quantum computation the most commonly used model being the quantum circuit model of computation A classical or non quantum

algorithm is a finite sequence of instructions or a step by step procedure for solving a problem where each step or instruction can be performed on a classical puter"

What would a very simple quantum program look like

April 29th, 2020 - What would a very simple quantum program look like

The problem of showing a hello world of quantum puting is that we re basically still as far from quantum puters as Leibnitz or puting program I have seen that contains all essential

elements is a small three
instruction program in the
simplest quantum
programming model
