*May 19th, 2020 - the make  
electronics book is still an  
outstanding resource but i would  
probably steer kids age 12 and  
under away from it unless they  
planned on working closely with a  
parent or teacher i have no doubt  
that there are plenty of examples of  
kids under age 12 working through  
the book but in my opinion the  
language level and plexity of some  
of the topics is probably best for  
ages 12 and up'*
