## ***Don't Mess With Texas ? The TI 99 4A Megademo Hackaday***

*January 30th, 2017 - Oh I started on the 4 A when I was 7  
years old I loved the thing Funny story? the program you use  
to load a BASIC program from a cassette tape is larger than  
the program used to save to tape'*

***'Raspberry Pi Pi 2 and Pi 3 Benchmarks Roy Longbottom s  
May 1st, 2018 - Roy Longbottom s PC benchmark Collection  
Raspberry Pi Benchmarks Whetstone Java C C Native Dhrystone  
Linpack Livermore Loops MemSpeed BusSpeed RandMem DriveSpeed'***

***'Embedded C Advanced Embedded Course Embedded C  
May 6th, 2018 - Vector Institute offers high quality advanced  
Embedded course with Embedded C We also takes written and  
practical test of our students which helps them to become an  
expert in Embedded field'***

***'How to write hello world in assembler under Windows  
May 6th, 2018 - I wanted to write something basic in assembly  
under Windows I m using NASM but I can t get anything working***

---

*How to write and compile hello world without the help of C functions on Windows'*

**'Driving a 7219 LED matrix from a Raspberry Pi ? Raspberry**  
*May 4th, 2018 - Thanks Andrew As for the fonts the odd mix of modern and retro is one of the things that makes playing with Raspberry Pi so much fun It feels a lot like messing with a 1980s home computer except that the rest of the world has moved on'*

**'ARM architecture Wikipedia**

*May 4th, 2018 - ARM previously Advanced RISC Machine originally Acorn RISC Machine is a family of reduced instruction set computing RISC architectures for computer processors configured for various environments'*

**'Free and open source graphics device driver Wikipedia**

*May 5th, 2018 - A free and open source graphics device driver is a software stack which controls computer graphics hardware and supports graphics rendering application programming interfaces APIs and is released under a free and open source software license'*

**'How to Choose a MicroController 21 Steps with Pictures**

*January 6th, 2007 - It used to be that the number of different microcontroller chips available to the hobbyist was pretty limited You got to use whatever you could manage to buy from'*

**'Past Events Computer History Museum**

*May 2nd, 2018 - This Special Intermediate Edition of Design Code Build is open to all Girl Scouts currently enrolled in grades 6 through 8 Level 2 builds on the introductory program exploring the engineering design process as students work in small teams to solve a tech challenge using Raspberry Pi technology'*

**'Raspberry Pi ?? 24 ??? Jun s homepage**

*May 4th, 2018 - ?????? Raspberry*
