Audio oscillator circuit based on ICL8038 Square

May 14th, 2018 - ICL 8038 waveform generator ICL8038 is a monolithic waveform generator IC that can produce sine square and triangular waveforms with very little distortion' **The VCO 1 Project Birth of A Synth**

May 11th, 2018 - To me the VCO 1 is an Instant Classic Thomas Henry design You ll find that this VCO though very spare in parts packs a wonderful analog wallop with remarkable precision'

'Test equipment circuit diagrams and electronic projects

May 11th, 2018 - Test equipment circuit diagrams and electronic projects Note that all these links are external and we cannot provide support on the circuits or offer any guarantees to their accuracy'

'LDV System 1 Component LDV Systems Laser Doppler

May 16th, 2018 - Application Notes High Speed Particle Size Measurements LDV 001 LDV Measurements In A Boundary Layer LDV 002 LDV Measurements in an IC Engine using a Spark Plug Mounted Probe LDV 006'

'Electronic Circuit Schematics

May 12th, 2018 - Electronic Circuit Schematics Note that all these links

to over 400 kHz adjustable amplitude
DC offset duty and of course the
function selection ? square triangle
and sine''
