October 25th,  
2017 - I am  
working on ARM  
Cortex M4 Since  
it has 32 bit

---

---

address bus  
therefore I  
assumed that  
each 32 bit  
instruction  
will be  
allocated a  
physical  
address  
location in the  
Flash But while  
reading the  
disassembly of  
the code I got  
to know that  
each  
instruction  
address needs 4  
address  
location Why is
