programmers the application of these java coding guidelines will
lead to better systems that are more robust and more resistant to
attack these guidelines cover a wide range of products coded in
java for devices such as pcs game players mobile phones tablets
home'

'47 prefer using iterators over enumerations java coding
April 26th, 2020 - 47 prefer using iterators over enumerations
according to the java api interface enumeration lt e gt
documentation api 2013 an object that implements the enumeration
interface generates a series of elements one at a time successive
calls to the nextelement method return successive elements of the

series as an example the following code uses an enumeration to display the contents of a vector''
