What was added in previous releases of NCL

May 11th, 2018 - Updated functions dim spi n Added second method for calculating SPI by applying a type III Pearson distribution gsn panel Updated to recognize streamline plots so you can panel multi color streamline plots with a common labelbar'

'Image source method Matlab code Eric A Lehmann

May 8th, 2018 - The Matlab files on this page provide an implementation of the image source method ISM described in 1 for the purpose of simulating reverberant audio data in small room acoustics" **Operators Catalog Caffe2**

May 10th, 2018 - Add Performs element wise binary addition with limited broadcast support If necessary the right hand side argument will be broadcasted to match the shape of left hand side argument' **matlab Histogram Equalization method without use of**

May 11th, 2018 - I am new to Matlab and am trying to implement code to perform the same function as histeq without actual use of the function In my code the image colour I get changes drastically when it should not'

'Arrays Rosetta Code

May 11th, 2018 - This task is about arrays For hashes or associative arrays please see Creating an Associative Array For a definition and in depth discussion of what an array is see Array'

'Understanding Overlap and Add for Filtering Stack Overflow

May 11th, 2018 - I am trying to implement the overlap and add method in order to apply a filter in a real time context However it seems that there is something I am doing wrong as the resulting output has a larger" *MusicDSP source code archive*

*May 11th, 2018 - Arbitrary shaped band limited waveform generation using oversampling and low pass filtering
References Posted by remage AT kac DOT poliod DOT hu Code Arbitrary shaped band limited waveform generation'*

'Peak to Average Power Ratio for OFDM dspLog

May 8th, 2018 - The post defines the peak to average power ratio PAPR and using matlab octave script computes the cumulative distribution function CDF of PAPR for 802 11a specification'

'Poisson Disk Sampling ? Dev Mag

May 10th, 2018 - Implementation There are several algorithms for producing a Poisson disk sample set The one presented here is easy to implement and runs reasonably fast"Overlap Add OLA STFT Processing Spectral Audio Signal

May 11th, 2018 - This chapter discusses practical implementation of the above relations using a Fast Fourier Transform FFT In particular we use an FFT to compute efficiently what may be regarded as a sampled DTFT'

'Understanding an OFDM transmission dspLog

May 9th, 2018 - Let us try to understand simulation of a typical Orthogonal Frequency Division Multiplexing OFDM transmission defined per IEEE 802 11a specification Orthogonal pulses'

'ViewPoint EyeTracker Arrington Research Eye Tracker

May 8th, 2018 - ViewPoint EyeTracker ® Affordable Quality Arrington Research eye trackers are used worldwide in psychology neuroscience marketing research sports training usability and many'

'Ball Tracking with OpenCV PylmageSearch

September 13th, 2015 - Ball tracking with OpenCV Let?s get this example started Open up a new file name it ball tracking py and we?ll get coding'
